ADITYA KUMAR JAISWAL

Greater Noida, Uttar Pradesh, India

+91 9142471063 | ravijaiswal822114@gmail.com | GitHub | LinkedIn | Codolio | Portfolio

Summary

Computer Science undergraduate specializing in Computer Networks & Cybersecurity with a strong foundation in Data Structures & Algorithms, Object-Oriented Programming, Operating Systems and DBMS. Familiar with Java, Kotlin, C, MySQL and JDBC through academic and personal projects. Interested in software development, backend systems and problem solving.

Education

B.Tech in Computer Science & Engineering 2024 – 2028
Galgotias University, Greater Noida, Uttar Pradesh CGPA: 8.87

Class XII – 75% 2023
Class X – 90.2% 2021
R.K. Public School, Garhwa, Jharkhand

Technical Skills

Languages: C, Java, Kotlin
Databases: MySQL, Room
APIs & Connectivity: Google Nearby Connections API, JDBC
Android: Android SDK, Jetpack Compose, XML, MVVM, RecyclerView
Tools: Git, GitHub, Android Studio, VS Code, XAMPP
Soft Skills: Teamwork, Time Management, Problem Solving, Leadership

Projects

NearVaarta | Kotlin, Jetpack Compose, Nearby Connections API, Room June 2026 – Aug 2026 (GitHub)

- Built NearVaarta, an offline-first peer-to-peer Android messaging app to enable text and media sharing between nearby devices without internet access or a central server.
- Used Google Nearby Connections API with application-level ACKs, retry mechanisms and message-ID based duplicate detection for reliable message delivery; implemented Clean Architecture with MVVM, Room, Hilt and Kotlin Coroutines
- Enabled reliable communication and media transfer between two physical Android devices in offline environments, with delivery confirmation and duplicate-message prevention.

Border Post Surveillance Log | Java, JDBC, MySQL, XAMPP Apr 2025 – Jun 2025 (GitHub)

- Built a Java desktop application to digitize border surveillance records and replace manual, paper-based logging of officers, vehicles and incidents.
- Designed a normalized MySQL database and used JDBC to perform CRUD operations; structured the application into modular components for officer management, vehicle logging and incident reporting.
- Centralized surveillance records into a single system, making data entry, retrieval and management more organized and reducing reliance on manual record-keeping.

Internship

Android Developer Virtual Internship | EduSkills (AICTE) Aug 2026 – Oct 2026

- Completed an 8-week virtual internship in Android development, covering UI design, app architecture, and Material Design.
- Learned Jetpack Compose, navigation, data persistence, internet connectivity, and WorkManager.

Ethical Hacking Virtual Internship | EduSkills (AICTE) Oct 2024 – Dec 2024

- Learned fundamental concepts of ethical hacking, network security and vulnerability assessment.
- Performed basic penetration testing techniques and security analysis in simulated environments.

Certifications

- Java Collections & Servlets & JSP – GUVI / HCL Oct 2025
- Getting Started with Linux Fundamentals (RH104) – Red Hat Academy June 2026

Achievements

– Solved 200+ DSA problems on LeetCode with a maximum rating of 1526.
– Regular Codeforces participant with a maximum rating of 939.
