

ADITYA KUMAR JAISWAL

Garhwa, Jharkhand, India

+91 9142471063 Email GitHub LeetCode Codeforces Portfolio

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Computer Networks & Cybersecurity with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and DBMS. Skilled in Android development using Kotlin, MVVM, Retrofit. Passionate about building scalable mobile applications and solving algorithmic problems.

EDUCATION

B.Tech in Computer Science & Engineering (Computer Networks & Cybersecurity) 2024 – 2028

Galgotias University, Greater Noida, Uttar Pradesh

CGPA: 8.83 / 10

Class XII (Senior Secondary)

2023

R.K. Public School, Garhwa, Jharkhand

Percentage: 75%

TECHNICAL SKILLS

Languages: C, Java, Kotlin

Database: MySQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Computer Networks

Android: Android SDK, XML, MVVM Architecture, RecyclerView

Libraries & Technologies: Retrofit, OpenWeather API, JSON Parsing, ViewModel, Repository Pattern, JDBC

Tools: Git, GitHub, Android Studio, VS Code, XAMPP

PROJECTS

Weather App | Kotlin, Android SDK, MVVM, Retrofit, OpenWeather API Nov 2025 – Jan 2026 (GitHub)

- Built an Android weather application using Kotlin and MVVM architecture, separating UI, ViewModel, and Repository layers for testability and maintainability.
- Integrated the OpenWeather API via Retrofit to fetch real-time conditions and hourly forecasts for any searched location, with JSON parsing into typed data models.
- Implemented dynamic day/night theming and instant °C/°F conversion, improving usability across regions and time of day.

Border Post Surveillance Log | Java, JDBC, MySQL, XAMPP Apr 2025 – Jun 2025 (GitHub)

- Developed a Java desktop application to manage border surveillance records for border posts, replacing manual paper logs.
- Designed a normalized MySQL schema and used JDBC for secure CRUD operations across officer, vehicle, and incident records.
- Structured the app into modular components (officer management, vehicle logging, incident reporting) for easier extension.

COMPETITIVE PROGRAMMING

- Solved **200+** Data Structures & Algorithms problems on **LeetCode** and achieved a **contest rating of 1300+**.
- Regularly participate in **Codeforces** rated contests with a **maximum rating of 760+(Newbie)**.

INTERNSHIP EXPERIENCE

Ethical Hacking Virtual Internship | EduSkills (AICTE) Oct 2024 – Dec 2024

- Learned fundamental concepts of ethical hacking, network security, and vulnerability assessment.
- Performed basic penetration testing techniques and security analysis on simulated environments.

CERTIFICATES

Java Collections & Servlets & JSP – GUVI / HCL Oct 2025

Red Hat System Administration I (RH124) — Red Hat Academy May 2026

Getting Started with Linux Fundamentals (RH104) — Red Hat Academy June 2026
